

RUDAMED®-elastisch

REF 080508

Product Description, Intended use, Application

The beige, transversely elastic adhesive dressing (8 cm x 5 m) is made of textile fabric which is provided with a well-adhering zinc oxide adhesive which has a high ageing resistance. RUDAMED®-elastisch is used to cover smaller primary healing wounds. The non-adherent wound pad absorbs blood and exudate. RUDAMED®-elastisch is packed in a convenient dispenser box with opening.

Composition

Polyester, viscose, polyethylene, zinc oxide adhesive

Contra indications

The product should not be used in the case of a known allergy against the material.

Incident reporting

According to MDR (EU) 2017/745, if serious incidents occur in relation to the device, they must be reported to the manufacturer and the competent authority of the Member State in which the user and/or patient is established.

Normative and Legal Requirements

Medical product according to the directive MDD 93/42/EEC and the regulation MDR (EU 2017/745).

The product does not contain dangerous toxic substances according to REACH.

Packaging

Primary:	folding box made of cellulose
Secondary:	carton made of cellulose
