

NOBAZELLTUPF®-steril

REF 209810

Product Description and Purpose

The sterile cellulose swab roll is provided with perforations, which allow an easy taking of the swabs. Each swab has a size of 8 cm x 10 cm.

The swabs are suited for the preparation of simple punctures with low risks, for example vein punctures for blood sampling.

Contraindications

Sterilized cellulose swabs are not suitable for the preparation of punctures with a higher risk, e.g. punctures of joints or organs. In this case individually packed sterile swabs are to be used.

Not to be used in case of a known allergy against the component listed below.

Composition

Cellulose
