

NOBAMED Paul Danz AG

NOBAGLOVE®-steril NITRIL

REF 909203 (as of LOT 135941)

Product Description, Intended use, Application

The single-use, powder-free sterile examination gloves (size L) are intended for use in non-invasive clinical purpose for protection from cross-contamination for both patient and user. A textured surface in the grip area increases the safe grip.

Composition

Nitrile Butadien Rubber (NBR) The product is latex-free.

Incident reporting

According to MDR (EU) 2017/745, if serious incidents occur in relation to the device, they must be reported to the manufacturer and the competent authority of the Member State in which the user and/or patient is established.

Normative and Regulative Requirements, Common Standards

Medical Device according to MDD 93/42/EEC, MDR (EU) 2017/745.

The examination gloves meet the requirements of EN 455. The AQL is \leq 1,5 referring to the imperviousness.

The product does not contain dangerous toxic substances according to REACH.

Packaging

Primary packaging: paper packaging

Secondary packaging: folding box made of

cellulose

Tertiary packaging: carton made of

cellulose

Symbols used in labelling

Explanation at www.nobamed.com

Marking on all packaging levels with CE and according to DIN EN ISO 15223-1- and DIN EN ISO 20417

Storage and Transport

Dry and dustfree, protect from sunlight.

Sterile device

Before using a sterile product, visually inspect the packaging to ensure that it is intact.

Single use device

Reusing a single use medical device can lead to microbiological danger. Reprocessing for reuse can decrease the product's performance significantly.

Disposal

According to locally applicable legal regulations and standards of infection prophylaxis.
