

RBP-100

The Riester RBP-100 is a professional, feature packed, versatile, clinical grade, digital

blood pressure monitor.

Riester clinical grade technology makes the difference. Automated blood pressure monitors manufactured by Riester offer the highest precision and the fastest readings.

RBP-100

RBP-100

Small, light and practical clinical grade blood pressure monitor for clinical use

- > World class, clinical grade NIBP monitor is approved by the BIHS validation
- > Arrythmia detection and clinically validated for patients with special conditions such as hypertension, hypotension, diabetes, pregnancy, pre-eclampsia, arteriosclerosis, end-stage renal disease, obesity, the elderly and for children > 3 years of age
- > Light Weight: 510g (1.12 lb) and practical blood pressure monitor for clinical use
- > Touch screen, easy to read 4" LCD screen, for easy one touch operation
- > Memory: capacity for 210 readings
- > Display panel with WHO Blood Pressure Value Classification (colour coded)
- Rechargeable internal battery pack (4x NIMH AA) allows 1000 measurements when fully charged
- > 6 hours needed for a full charge
- > Partial standby mode (shut-off of background illumination after 10 seconds)
- > Storage basket on the reverse side for desk, mobile and for wall-mount version. Additional optional basket can be attached to pole of mobile stand
- > 2-year warranty
